

# FRIENDS OF DYSLEXIA INC.

Friends of Dyslexia Inc. is proud to announce that as of December 16, 2015 we are the only non-profit registered charity under the Income Tax Act that raises funds for services related to dyslexia in Canada. 80% of raised funds go directly to people with dyslexia for services.

The mission of Friends of Dyslexia Inc. is to assist people and enhance their ability to overcome their challenges through financial support for assessment, tutoring, and technologies. We are committed to ensure facilities providing services meet regulated standards.

Dyslexia affects 1 in 5 people. Dyslexia is a reading and spelling problem not a thinking problem. Investing in the education and improving both reading and spelling will allow confidence to grow. Their new future will open doors to endless possibilities.

Our goal is to raise money for: <https://www.fodcanada.ca/projects>

Every human being has the right to live their dream. To build a future that reflects their passion, love, interests, happiness, and sense of community. Everyone has the right to choose their future. It's our obligation to help them realize their dreams. It's our job to lead them down their path to instill pride and empathy to our future generation.
